**CRIME RELATED** – As we move towards our summer period crime patterns shift.

One tends to forget and leave doors and gates open to allow a fresh breeze in the heat, we tend to be outside more, either swimming or braaing and doors are left open. This is when the criminal sees a soft target and this type of situation could end up in a house robbery.

Arm your perimeter beams and install a perimeter protection system in such a way that these can be armed even when you outside and entertaining.

Enjoy the warm weather!
